I. Call to Order
   a. Meeting called to order at 4:30 pm

II. Welcome
   a. Make sure to sign the agreement regarding the expectations for Student Assembly over the 2016-2017 year.

III. Officer Updates
   a. Lobbyist
      i. Josh is coming up with a policy to show our stance on higher education funding. His committee will need to help him come up with that stance, mainly on "performance-based budgeting."
      ii. Plans on having a strong voice in the Capitol this year.
   b. Organizational Affairs
      i. Wes tells us we have a little over $200,000 left in ASBSU reserves for Funding Board. We have been spending much more money than normal on Direct Grants (max of $4,000 per grant).
   c. External Affairs
      i. Tommy put on a fantastic Block Party. It brought in about 700 people and satisfied all of the local businesses who came to represent themselves. Possibility of a spring Block Party.
   d. President
      i. Rebecca tells us Exec Meetings are in the Foote Room every Monday morning at 10 am.
      ii. First football game is Sep. 10, there will be a student Tailgate inside giving away rally towels and food coupons. ASBSU has been asked to fund the food, instead of the giveaways. Last week we spent $11,000 on Sponsored Projects. Possibly by the second game we will start funding food vouchers.
      iii. Many jobs on BroncoJobs are only offering Work-Study rather than minimum-wage. Students are growing frustrated by this. Some are missing the priority deadline to ensure taking part in Work-Study.
      iii. Met with Kevin Satterlee, who is in charge of the SUB.
         1. He would like to see a Food Advisory and Recommendations Committee (taste food that could potentially end up in the BRC.)
         2. Also, conferences are still overtaking the SUB more than students. These conferences have been planning to use the space for years, and cannot be denied now.
         3. Wants student feedback on what they would like to see changed in the SUB. Some ideas involved keeping
the space for years, and cannot be denied now.
3. Wants student feedback on what they would like to see changed in the SUB. Some ideas involved keeping restaurants open later, however a 24/7 SUB causes problems such as keeping students working way too late into the night and involves the possibility of homeless people making their homes on campus.
